NEW ZEALAND'S DEFINITIVE DESIGN COLLECTION

*The 2012  
Design Folio  
Incubator  
Award*

My passion is to create unique and different spaces, reflecting my clients' individuality. A sanctuary with soul and a spark of magic where one can escape life's everyday demands.

## CELIA VISSER

Kitchen and Bathroom Designer

My vision is to design simple yet sophisticated interior environments incorporating impeccable quality and comfort. Enduring design requires an understanding of a client's needs, conditions and desires whether it be a new build or renovating an existing home.

Enhancing the architectural environment combined with functionality are crucial elements in achieving harmonious and aesthetically pleasing designs. The natural landscape is a continual influence in my work from which I take inspiration. This forms the basis of my approach to design as I strive to create an atmosphere that influences the way people feel within the space.
